

Geologist Technician (Geo Tech) Job Posting

Position Description: Are you looking to be a part of a team focused on advancing one of the largest undeveloped gold properties in Canada?

Moneta Gold is a Timmins-based gold exploration company focused on advancing its 100% owned Tower Gold project. Tower Gold is located just 100km east of Timmins along Hwy 101, and has the largest land position in the eastern Timmins Gold Camp, which is one of the most prolific gold-producing regions in the world, with over 85Moz of gold produced to date.

Moneta Gold's Geology/Exploration team is seeking a dynamic **Geo Tech** to join our team. Reporting to the **Project Geologist**, the primary role of the Geo Tech is to lead the execution of exploration programs and the geological interpretation of our ore bodies. This position is based in the Timmins / Black River - Matheson, Ontario, area.

Moneta Gold has committed to building a great culture, including a safe work environment and leaving a sustainable legacy on our host communities. We offer a benefits package which includes a medical, dental, and vision plan, paid time off, and long-term incentives.

Primary Duties

- The position requires sustained physical work such as lifting and carrying full core boxes
- Rack, load and unload core boxes as required both inside and in yard
- Setup core racks as required
- Core yard, building, and equipment/vehicle maintenance
- Cut core samples as laid out, bag, and ship

- Cut core samples in half with a wet saw following the QA/QC protocol
- Assist with preparing core sample shipments
- Duties may include core measuring, RQD, core box labeling
- Measure core recoveries
- Bulk density measurements

- Core orientation after training
- Ability to compile and ship samples batches
- Duties may include core measuring, RQD, core box labeling
- Moving material(core skids/pulps and rejects)
- Storing pulps and rejects

- Sorting pulps and rejects for QAQC

- Packaging/shipping QAQC material
- Data Entry as Required
- Assist Core Loggers/Geologists as required
- Field pickup of core
- Identifying collar locations, access, GPS and compass work

Prerequisites:

- Experience working with a wet saw
- A valid and clean driving record
- High School Diploma or GED equivalent
- Physically fit
- Good communication skills, literacy and numeracy skills
- Self Starter with ability to manage repetitive tasks
- Safety conscious
- Minimum one (1) year as a Core Technician or equivalent experience and/or education
